# GATE Newsletter

Volume 1, Issue 4

November 9th, 2018

## Give thanks...

Dear Parent(s) / Guardian(s)

This month, our students will complete their second Lab project and continue working on their Long Term projects. At the same time, our 6th grade students will be working on their Imaginary Country for the upcoming Passport Night event.

Several events will take place in November, including Noetic Learning Math Contest, Parent Academy and Field Trip. Noetic Learning Math Contest took place on November 8th. Congratulations to all our participants! As soon as results received, they will be shared with our participants. Parent Academy will take place on November 13th, 5-7 pm. Parents are invited to attend a variety of informational sessions to help support and enhance student achievement, including Advanced Academics, Coping Strategies, Science Fair, and many others. Our first field trip will take place on November 14th, 2018 at National Videogame Museum.

Last but not the least, fall testing session has been completed - for KN and newly enrolled students. We are excited to welcome new classmates in January.

Please do not forget to visit our website regularly. Aside from all the information about the projects we are and will be working on, you can also find the important dates and events that are taking place in Gifted and Talented Community.
